ABOUT THE ARTS, PERFORMANCE AND TECHNOLOGIES FACULTY

The Arts, Performance and Technologies (APT) is an ambitious faculty comprising of all the 'Open Bucket' subjects, including Art, PE, Drama, Music, Business, Computing, Design Technology and 3D Design. We have ten full time teachers and one part time teacher. Faculty resources are excellent, and we benefit from well-maintained IT rooms in both KS3 and KS4. Our GCSE Business and Computing courses follow the Pearson specification.

We are proud of our achievements to date, particularly the exceptional results achieved which have enhanced the reputation and popularity of the school. Business in particular is an extremely popular subject – in our current Year 10 cohort around half the year group selected Business as an option. The curriculum plans are robust, and pupils develop a broad range of practical skills and knowledge.

At KS3 students are taught in mixed ability groups. Students generally have one lesson of computing a week and we run an enterprise unit as part of our Year 9 carousel. We offer a whole range of ambitious and interesting extracurricular opportunities, and we are proud to be a recognised CyberFirst school, meaning our computing and business pupils have many CEIAG opportunities with trips and visits to a range of employers and higher education institutions.

The appointment of an enthusiastic and ambitious Business and Computing teacher is key to continuing the faculty's success and supporting the design and delivery of our ambitious curriculum and extra-curricular programme.

Our teachers are passionate, collaborative, committed and reflective and the faculty is driven by the belief that all pupils can and will achieve. We look forward to appointing a high-calibre and enthusiastic teacher who is driven by the desire to ensure that all young people have access to the highest quality of education, regardless of background. We look forward to receiving your application.
