ABOUT THE LANGUAGES AND LITERACY FACULTY

Our aim as a faculty is to inspire and motivate our pupils to be successful by increasing their cultural and linguistic awareness and understanding. We aim to spark curiosity and enthusiasm as students develop their skills, enabling them to be confident, adaptable communicators, and to be well-rounded, active members of our democratic society.

Our MFL team aim to inspire pupils and prepare them for life in a multicultural world by equipping them with the skills to communicate confidently in a foreign language. MFL sits within the wider languages and literacy faculty, allowing for greater collaboration and support from English colleagues.

Currently, Spanish is taught at both KS3 and KS4 (AQA specialism) with a strong emphasis on pupil interaction, participation, and cultural enrichment. Lessons are designed to be immersive and dynamic, helping pupils develop both linguistic competence and cultural awareness.

Language learning is extended beyond the classroom through a variety of enrichment opportunities, including competitions and events such as European Languages Day and International Mother Tongue Day. The team has also led successful cultural visits to Spain, which are always well received by students and families.

The team is committed to continuous improvement through collaboration, innovation, and a shared passion for excellent teaching and learning. We welcome applicants who are enthusiastic, reflective, and eager to contribute to a positive and ambitious faculty.
